1 But Solomon[H8010] was building[H1129] his own house[H1004] thirteen[H7969][H6240] years[H8141], and he finished[H3615] all his house[H1004]. **2** He built[H1129] also the house[H1004] of the forest[H3293] of Lebanon[H3844]; the length[H753] thereof was an hundred[H3967] cubits[H520], and the breadth[H7341] thereof fifty[H2572] cubits[H520], and the height[H6967] thereof thirty[H7970] cubits[H520], upon four[H702] rows[H2905] of cedar[H730] pillars[H5982], with cedar[H730] beams[H3773] upon the pillars[H5982]. **3** And it was covered[H5603] with cedar[H730] above[H4605] upon the beams[H6763], that lay on forty[H705] five[H2568] pillars[H5982], fifteen[H6240] in a row[H2905].[1] **4** And there were windows[H8261] in three[H7969] rows[H2905], and light[H4237] was against light[H4237] in three[H7969] ranks[H6471].[2] **5** And all the doors[H6607] and posts[H4201] were square[H7251], with the windows[H8260]: and light[H4237] was against[H4136] light[H4237] in three[H7969] ranks[H6471].[3] **6** And he made[H6213] a porch[H197] of pillars[H5982]; the length[H753] thereof was fifty[H2572] cubits[H520], and the breadth[H7341] thereof thirty[H7970] cubits[H520]: and the porch[H197] was before[H6440] them: and the other pillars[H5982] and the thick beam[H5646] were before them.[4] **7** Then he made[H6213] a porch[H197] for the throne[H3678] where he might judge[H8199], even the porch[H197] of judgment[H4941]: and it was covered[H5603] with cedar[H730] from one side of the floor[H7172] to the other[H7172].[5] **8** And his house[H1004] where he dwelt[H3427] had another[H312] court[H2691] within[H1004] the porch[H197], which was of the like work[H4639]. Solomon[H8010] made[H6213] also an house[H1004] for Pharaoh's[H6547] daughter[H1323], whom he had taken[H3947] to wife, like unto this porch[H197]. **9** All these were of costly[H3368] stones[H68], according to the measures[H4060] of hewed stones[H1496], sawed[H1641] with saws[H4050], within[H1004] and without[H2351], even from the foundation[H4527] unto the coping[H2947], and so on the outside[H2351] toward the great[H1419] court[H2691]. **10** And the foundation[H3245] was of costly[H3368] stones[H68], even great[H1419] stones[H68], stones[H68] of ten[H6235] cubits[H520], and stones[H68] of eight[H8083] cubits[H520]. **11** And above[H4605] were costly[H3368] stones[H68], after the measures[H4060] of hewed stones[H1496], and cedars[H730]. **12** And the great[H1419] court[H2691] round about[H5439] was with three[H7969] rows[H2905] of hewed stones[H1496], and a row[H2905] of cedar[H730] beams[H3773], both for the inner[H6442] court[H2691] of the house[H1004] of the LORD[H3068], and for the porch[H197] of the house[H1004].

13 And king[H4428] Solomon[H8010] sent[H7971] and fetched[H3947] Hiram[H2438] out of Tyre[H6865]. **14** He was a widow's[H802][H490] son[H1121] of the tribe[H4294] of Naphtali[H5321], and his father[H1] was a man[H376] of Tyre[H6876], a worker[H2790] in brass[H5178]: and he was filled[H4390] with wisdom[H2451], and understanding[H8394], and cunning[H1847] to work[H6213] all works[H4399] in brass[H5178]. And he came[H935] to king[H4428] Solomon[H8010], and wrought[H6213] all his work[H4399].[6] **15** For he cast[H6696] two[H8147] pillars[H5982] of brass[H5178], of eighteen[H8083][H6240] cubits[H520] high[H6967] apiece[H5982][H259]: and a line[H2339] of twelve[H8147][H6240] cubits[H520] did compass[H5437] either[H8145] of them about[H5437].[7] **16** And he made[H6213] two[H8147] chapiters[H3805] of molten[H3332] brass[H5178], to set[H5414] upon the tops[H7218] of the pillars[H5982]: the height[H6967] of the one[H259] chapiter[H3805] was five[H2568] cubits[H520], and the height[H6967] of the other[H8145] chapiter[H3805] was five[H2568] cubits[H520]: **17** And nets[H7638] of checker work[H4639], and wreaths[H1434] of chain[H8333] work[H4639], for the chapiters[H3805] which were upon the top[H7218] of the pillars[H5982]; seven[H7651] for the one[H259] chapiter[H3805], and seven[H7651] for the other[H8145] chapiter[H3805]. **18** And he made[H6213] the pillars[H5982], and two[H8147] rows[H2905] round about[H5439] upon the one[H259] network[H7639], to cover[H3680] the chapiters[H3805] that were upon the top[H7218], with pomegranates[H7416]: and so did[H6213] he for the other[H8145] chapiter[H3805]. **19** And the chapiters[H3805] that were upon the top[H7218] of the pillars[H5982] were of lily[H7799] work[H4639] in the porch[H197], four[H702] cubits[H520]. **20** And the chapiters[H3805] upon the two[H8147] pillars[H5982] had pomegranates also above[H4605], over against[H5980] the belly[H990] which was by[H5676] the network[H7639]: and the pomegranates[H7416] were two hundred[H3967] in rows[H2905] round about[H5439] upon the other[H8145] chapiter[H3805]. **21** And he set up[H6965] the pillars[H5982] in the porch[H197] of the temple[H1964]: and he set up[H6965] the right[H3233] pillar[H5982], and called[H7121] the name[H8034] thereof Jachin[H3199]: and he set up[H6965] the left[H8042] pillar[H5982], and called[H7121] the name[H8034] thereof Boaz[H1162].[89] **22** And upon the top[H7218] of the pillars[H5982] was lily[H7799] work[H4639]: so was the work[H4399] of the pillars[H5982] finished[H8552]. **23** And he made[H6213] a molten[H3332] sea[H3220], ten[H6235] cubits[H520] from the one brim[H8193] to the other[H8193]: it was round[H5696] all about[H5439], and his

height^H6967 was five^H2568 cubits^H520: and a line^H6957 ^H6961 of thirty^H7970 cubits^H520 did compass^H5437 it round about^H5439.^10
24 And under the brim^H8193 of it round about^H5439 there were knops^H6497 compassing^H5437 it, ten^H6235 in a cubit^H520, compassing^H5362 the sea^H3220 round about^H5439: the knops^H6497 were cast^H3333 in two^H8147 rows^H2905, when it was cast^H3332. **25** It stood^H5975 upon twelve^H8147 ^H6240 oxen^H1241, three^H7969 looking^H6437 toward the north^H6828, and three^H7969 looking^H6437 toward the west^H3220, and three^H7969 looking^H6437 toward the south^H5045, and three^H7969 looking^H6437 toward the east^H4217: and the sea^H3220 was set above^H4605 upon them, and all their hinder parts^H268 were inward^H1004. **26** And it was an hand breadth^H2947 thick^H5672, and the brim^H8193 thereof was wrought^H4639 like the brim^H8193 of a cup^H3563, with flowers^H6525 of lilies^H7799: it contained^H3557 two thousand^H505 baths^H1324. **27** And he made^H6213 ten^H6235 bases^H4350 of brass^H5178; four^H702 cubits^H520 was the length^H753 of one^H259 base^H4350, and four^H702 cubits^H520 the breadth^H7341 thereof, and three^H7969 cubits^H520 the height^H6967 of it. **28** And the work^H4639 of the bases^H4350 was on this manner: they had borders^H4526, and the borders^H4526 were between the ledges^H7948: **29** And on the borders^H4526 that were between the ledges^H7948 were lions^H738, oxen^H1241, and cherubims^H3742: and upon the ledges^H7948 there was a base^H3653 above^H4605: and beneath the lions^H738 and oxen^H1241 were certain additions^H3914 made of thin^H4174 work^H4639. **30** And every^H259 base^H4350 had four^H702 brasen^H5178 wheels^H212, and plates^H5633 of brass^H5178: and the four^H702 corners^H6471 thereof had undersetters^H3802: under the laver^H3595 were undersetters^H3802 molten^H3332, at the side^H5676 of every^H376 addition^H3914. **31** And the mouth^H6310 of it within^H1004 the chapiter^H3805 and above^H4605 was a cubit^H520: but the mouth^H6310 thereof was round^H5696 after the work^H4639 of the base^H3653, a cubit^H520 and an half^H2677: and also upon the mouth^H6310 of it were gravings^H4734 with their borders^H4526, foursquare^H7251, not round^H5696. **32** And under^H8478 the borders^H4526 were four^H702 wheels^H212; and the axletrees^H3027 of the wheels^H212 were joined to the base^H4350: and the height^H6967 of a^H259 wheel^H212 was a cubit^H520 and half^H2677 a cubit^H520.^11 **33** And the work^H4639 of the wheels^H212 was like the work^H4639 of a chariot^H4818 wheel^H212: their axletrees^H3027, and their naves^H1354, and their felloes^H2839, and their spokes^H2840, were all molten^H3332. **34** And there were four^H702 undersetters^H3802 to the four^H702 corners^H6438 of one^H259 base^H4350: and the undersetters^H3802 were of the very base^H4350 itself. **35** And in the top^H7218 of the base^H4350 was there a round^H5696 compass^H5439 of half^H2677 a cubit^H520 high^H6967: and on the top^H7218 of the base^H4350 the ledges^H3027 thereof and the borders^H4526 thereof were of the same. **36** For on the plates^H3871 of the ledges^H3027 thereof, and on the borders^H4526 thereof, he graved^H6605 cherubims^H3742, lions^H738, and palm trees^H8561, according to the proportion^H4626 of every one^H376, and additions^H3914 round about^H5439.^12 **37** After this manner he made^H6213 the ten^H6235 bases^H4350: all of them had one^H259 casting^H4165, one^H259 measure^H4060, and one^H259 size^H7095. **38** Then made^H6213 he ten^H6235 lavers^H3595 of brass^H5178: one^H259 laver^H3595 contained^H3557 forty^H705 baths^H1324: and every^H259 laver^H3595 was four^H702 cubits^H520: and upon every one^H259 of the ten^H6235 bases^H4350 one^H259 laver^H3595. **39** And he put^H5414 five^H2568 bases^H4350 on the right^H3225 side^H3802 of the house^H1004, and five^H2568 on the left^H8040 side^H3802 of the house^H1004: and he set^H5414 the sea^H3220 on the right^H3233 side^H3802 of the house^H1004 eastward^H6924 over against^H4136 the south^H5045.^13 **40** And Hiram^H2438 made^H6213 the lavers^H3595, and the shovels^H3257, and the basons^H4219. So Hiram^H2438 made^H3615 an end of doing^H6213 all the work^H4399 that he made^H6213 king^H4428 Solomon^H8010 for the house^H1004 of the LORD^H3068:^14 **41** The two^H8147 pillars^H5982, and the two bowls^H1543 of the chapiters^H3805 that were on the top^H7218 of the two^H8147 pillars^H5982; and the two^H8147 networks^H7639, to cover^H3680 the two^H8147 bowls^H1543 of the chapiters^H3805 which were upon the top^H7218 of the pillars^H5982; **42** And four^H702 hundred^H3967 pomegranates^H7416 for the two^H8147 networks^H7639, even two^H8147 rows^H2905 of pomegranates^H7416 for one^H259 network^H7639, to cover^H3680 the two^H8147 bowls^H1543 of the chapiters^H3805 that were upon^H6440 the pillars^H5982;^15 **43** And the ten^H6235 bases^H4350, and ten^H6235 lavers^H3595 on the bases^H4350; **44** And one^H259 sea^H3220, and twelve^H8147 ^H6240 oxen^H1241 under the sea^H3220; **45** And the pots^H5518, and the shovels^H3257, and the basons^H4219: and all these vessels^H3627, which Hiram^H2438 made^H6213 to king^H4428 Solomon^H8010 for the house^H1004 of the LORD^H3068, were of bright^H4178 brass^H5178.^16 **46** In the plain^H3603 of Jordan^H3383 did the king^H4428 cast^H3332 them, in the clay^H4568 ground^H127 between Succoth^H5523 and Zarthan^H6891.^17 **47** And Solomon^H8010 left^H3240 all the vessels^H3627 unweighed, because they were exceeding^H3966 ^H3966 many^H7230: neither was the weight^H4948 of the brass^H5178 found out^H2713.^1819

48 And Solomon^H8010 made^H6213 all the vessels^H3627 that pertained unto the house^H1004 of the LORD^H3068: the altar^H4196 of gold^H2091, and the table^H7979 of gold^H2091, whereupon the shewbread^H3899 ^H6440 was, **49** And the candlesticks^H4501 of pure^H5462 gold^H2091, five^H2568 on the right^H3225 side, and five^H2568 on the left^H8040, before^H6440 the oracle^H1687, with the flowers^H6525, and the lamps^H5216, and the tongs^H4457 of gold^H2091, **50** And the bowls^H5592, and the snuffers^H4212, and the

basons[H4219], and the spoons[H3709], and the censers[H4289] of pure[H5462] gold[H2091]; and the hinges[H6596] of gold[H2091], both for the doors[H1817] of the inner[H6442] house[H1004], the most[H6944] holy[H6944] place, and for the doors[H1817] of the house[H1004], to wit, of the temple[H1964].[20] **51** So was ended[H7999] all the work[H4399] that king[H4428] Solomon[H8010] made[H6213] for the house[H1004] of the LORD[H3068]. And Solomon[H8010] brought in[H935] the things which David[H1732] his father[H1] had dedicated[H6944]; even the silver[H3701], and the gold[H2091], and the vessels[H3627], did he put[H5414] among the treasures[H214] of the house[H1004] of the LORD[H3068].[21]
